

All We Ever Wanted (feat. Maurits Westerik)

Happy Camper

we might try taking it easy
let's take a walk in the park
why do we keep on growing weary
growing up seem to be not enoughwe were sure we never part
we would never change our heart
still we wonder where to startwe were sure we never part
we would never change our heart
still we wonder where to startand we keep thinking about what could or should have been
but whatever we trystill we wonder
is all we ever wanted
is to get a piece of advice
oh I try taking it easy
let's take a walk in the park
why do we keep on growing weary
growing up seems to be hard enoughand we keep thinking about what could or shoul've been
but whatever we trystill we wonder
is all we ever wanted
is to get a piece of advicewe were sure we never part
we would never change our heart
still we wonder where to startwe were sure we never part
we would never change our heart
still we wonder where to startand we keep thinking about what could or should've been
but whatever we try
still we wonder
is all we ever wanted was towe keep thinking about what could or should have been
but whatever we trystill we wonder
is all we ever wantedwe keep thinking about what could or should've beenwe keep thinking about what could or
should've beenwhat could or should've beencause all we ever wanted was to get a piece of mind
