Many, Many, Many Beers Ago

Aaron Tippin

With every drink I take, it's gettin' harder to recall
And I ain't gonna stop until I forget it all
'Cause once upon a time she used to love me so
But that was many, many, many beers agoWell now all my tin can buddies that help me ease the pain
One by one they remind me, she's not coming back again
Just how long she's been gone, I can't say, I really know
Lord, it's been many, many, many beers agoI don't need a watch or a clock on the wall
To tell me just how long it took for me to lose it all
And this gettin' over her is going pretty slow
It's been many, many, many beers agoYeah, all my tin can buddies that help me ease the pain
One by one they remind me, she's not coming back again
Just how long she's been gone, I can't say, I really know
But it's been many, many, many beers ago
