

# The South Sound

## British Sea Power

Straight down the line with blood  
Straight down the line with hate  
I never felt so good  
I never felt so great It all looks so familiar  
Its so very [Incomprehensible] tough  
Cross the military ground  
I am lost but Ill be found Sunshine, gunfire [Incomprehensible] at me  
I wont be getting hurt today  
Fifteen miles without a break  
Just for one more month of grace I said romance is dead  
Created destruction in my head  
But right in my heart is a torture so [Incomprehensible]  
But I never felt so good Straight down the line with blood  
Straight down the line with hate  
I never felt so good today  
I never felt so great He made me a meal out of the scraps  
Then he talked to a photograph  
He would rather take your pain  
Than see you get hurt this way Cause you cant make it alone  
You cant make it alone  
And you can never know  
You can never know Don't go any further  
Don't go any further I never knew that it could feel so good  
I never knew that it could feel so good  
I never knew that it could feel so good  
I never knew that it could feel so good Cause it feels Ive known  
Cause its all just so point blank  
But you never felt so good Straight down the line with blood  
Straight down the line with hate  
I never felt so good  
I never felt so great Straight down the line, straight down the field  
Straight down the line nothing is real  
Imploding, combusting  
Better yet settling And you cant make it alone  
You cant make it alone
