Anybody Else

Teen Idols

Nothing I've ever done could measure up to you
Nothing you've ever done could keep me from you
So I think I'll try a little harder now
Try to keep my life from burning up with doubtI kill myself
Every time I think of you with somebody, anybody else
I kill myself
Every time I picture you with somebody, anybody elseNothing I've ever done could keep my mind off you
Nothing you've ever done could push me from you
So I think I'll run a little harder now
Try to deep my life from turning upside downI kill myself
Every time I think of you with somebody, anybody else
I kill myself
Every time I picture you with somebody, anybody elseI look at you
Looks like everything's betterI kill myself
Every time I think of you with somebody, anybody else
I kill myself
Every time I picture you with somebody, anybody else
