

Ladylike

Talia Wittmann

So when she lays down it'll be
 With me
Lord, she'll lay down with me
And when she walks out it'll be
 On me
Lord, she'll walk out on me
 When she kneeling it'll be
 For me
Lord, she's kneeling for me
And if I need you to be secure
 It's cause I'm not
You're so ladylike and more
 When she focused it'll be
 On me
Lord, she's focused on me
And if she walks with it'll be

 With me
 She's walking with me
And if I need you to be secure
 It's cause I'm not
You're so ladylike and more
 If she wishes it'll be
 On me
Lord, she's wishing on me
 And when she's hopeless
Lord, she's hopeless with me
And if I need you to be secure
 It's cause I'm not
 You're ladylike
I need you to be secure if I'm not
 You're ladylike and more
