

My

Okay

More than you know, more than I can show

It's my heart, you got

More than brave(?), more than I can say

It's my heart, you got

More than you see, more than up to me

It's my heart, you got

More than alone, more than on your own

It's my heart, you got

It's my heart, you got

It's my heart, you got

It's my heart, you got

And I start speaking to soon, when I look at the moon...

...light on, your face

And I'm not one to be proud, but I'll say it out loud...

...that you are, my heart

I start speaking to soon, when I look at the moon...

...light on your face

And I'm not one to be proud, but I'll say it out loud...

...that you are, my heart

That, you are, my heart

And, you are, my heart

And, you are, my heart
