

# Knock Down Drag Out

## All Your Dead Pets

Drag it on too long  
And you're bound to come undone  
You want reaction go on and do what you need  
Yeah suit yourself it's all the same to me  
Back and forth you run  
But the pain remains unsung  
You want reaction go on and do what you need  
Yeah suit yourself it's all the same to me  
No more distraction go on and do what you need  
This knock down drag out's over and now I can breathe

Well my regard ain't high  
And I don't mind Open your eyes  
The lies are my disguise  
You want reaction go on and do what you need  
Yeah suit yourself it's all the same to me  
No more distraction go on and do what you need  
This knock down drag out's over and now I can breathe  
No more lying  
No more trying  
No more dying  
No more faith in you
