

Inside a Dream

Pet Shop Boys

To making a ride inside a dream
Live in a world I've never seen
Wishes come true, that should have him
Looks familiar, feels unseen Inside a dream
Inside a dream
Inside a dream
Inside a dream
Inside a dream
Inside a dream The land of dreams
Is a little far
A ball full of light
Of non-existent The land of dreams
Is a little far
A ball full of light
Of non-existent Driving along but some will play
Something I only heard you'd take
A new melody with such delay
The music will never fade away The land of dreams
Is a little far
A ball full of light
Of non-existent The land of dreams
Is a little far
A ball full of light
Of non-existent The land of dreams
Is a little far
A ball full of light
Of non-existent The land of dreams
Is a little far
A ball full of light
Of non-existent
