

# Everygirl

## Emmaline

I cant take anymore of this  
My minds made up  
I cant get no blissFussing and fighting  
I cant stand the lying  
Why do you do this  
Pushing and pulling  
I wish we had never  
Had that first kissWhat I dont get are  
The things that I cant forget  
Your smile most of all  
And all the cool things you saidSake on sunset  
With 2 chainz in my head  
I never had a chance  
Drinking at saddle ranch  
Driving your car so fast  
You held my handBut I cant ignore it  
The signs are important  
You party with every girl  
Im not the only one  
Better to leave it be  
maybe another day  
smarter to walk away  
Im not every girlSex on the rooftop  
Overlooking Hollywood  
mesmerised  
4th of july  
getting pulled over by the cops  
laughed till we criedchorusI cant believe that I fell for it  
How could you treat me just like them
