Infest (Live At Fillmore Detroit)

Papa Roach

Welcome to the original Papa Roach soundfire
Viva La CucarachaMy name's Coby Dick
Mr.Dick if you're nasty
Rock a mic with a voice that's raspy
And I'm poetic in my operations
My God given talent is to rock all the nationsWe're going to infestInfest, the theory of my first manifesto
Push ya wig back with my lyrical pistol
There now Papa Roach is on your mental
Banging like your head piece it's just that simple
Cock back and unleash with my physical
Wrap you in my thoughts and become indivisable
Centrifugal, forces individuals into my mind as we rock into ritual
You better do just what I say
And if you don't then you will pay
InfestWe're going to infest
We're getting in your head
What is wrong with the world today
The government, the media, or your familyWe're going to infest
We're getting in your head
What is wrong with the world today
The government, the media, or your family
You better do just what I say
Now that I got your attention
Did I forget to mention
All the heads will be infesting
Hope you people learn your lessons
Cause the game of life is crazy
Got all the people guessin'
What is wrong with the world today
Government, media, or your familyWould you cry if I died today
I think it be better if you did not say
You better do just what I say
And if you don't then you will payInfest
We're going to infest
We're getting in your headWhat is wrong with the world today
The government, the media, or your family
We're going to infest
We're getting in your headWhat is wrong with the world today
The government, the media, or your family

We will infestDie like the rest
First they shackle your feet
Then they stand you in a line
Then they beat you like meat
Then they grab you by your mind
First they shackle your feet
And then they stand you in a line
And then they beat you like meat
Infest your mind
We will infest
Die like the rest
People are the problem today
We will infest
Die like the rest
People are the problem today
We're going to infest
We're getting in your head
What is wrong with the world today
The government, the media, or your family
We're going to infest
We're getting in your head
What is wrong with the world today
The government, the media, or your family
