

Annie (Martin Rev Remix)

Neon Indian

Annie, don't run away
Where I can't find you
The game has gone too far
Talking, I'm out of talk
Playing telephone, 20 city blocks
Annie, they have
The investigation's already underway
Don't try to sin, she said please???
Not try to see, but I can use to be
Answer up, answer the machine
Answer up, answer the machine
Answer up, answer the machine And your thunder, a business to trip
There was no other
That is shadowing the place
With???

I don't miss to be the type that stays in place
Annie, I was closing it
But it's clear the number
I'm walking in the rain
To go down the hall
To sit until you call
And I try to sleep, but can use to be Answer up, answer the machine
Answer up, answer the machine
Answer up, answer the machine
