

# Just A Dream

## Betavoice

Was I dreaming?  
Was I awake?  
Or did you come home  
Today?  
For the rest of my life  
A little pity  
For the rest of our lives  
A little pity  
Pick up your stones  
And go to work on my bones  
And then tell me if they'll be alright  
I'll come 'round for this moment  
The only other moment  
To see you when you're down  
I'll come 'round, I'll come around  
See you when you're down  
This is a mistake  
Long roads never cast  
The long burning embers of your heart  
When the sun rose, the surface  
It removed the reflection of you  
Long roads don't mean anything to me now  
They're gone and done  
Into the sun for now  
Pick up your stones  
And go to work on my bones  
And then tell me if they'll be alright  
I'll come 'round for this moment  
The only other moment  
To see you when you're down  
I'll come 'round, I'll come around  
See you when you're down  
This is a mistake
