

# Wanna Be Thugs (featuring Havoc) - Explicit

## Prodigy of Mobb Deep

[Havoc]

Uh-huh, yeah, here comes another one  
And niggaz gon' now what I'm talkin about  
(Most def, most definitely)[Prodigy]  
Hey yo, Hav' man (yeah) kick that shit my nigga[Havoc]  
Check me out yo, uh-huh, yeah..[Chorus: Havoc: x2]  
Want to be thugs, there's sugar in they tank  
Want to be thugs, no cash in the bank  
Want to be thugs, up North get raped  
Want to be thugs, flashing jewels get ganked[Havoc]  
Yo I seen all types be the victim of a kite  
Be like, them silly fishes be the first one to bite yo  
They see the cheese but they don't see the trap  
Not a real live cat, but a real live rat  
You got, broken guns, the first to run  
First to leave, first to abandon your team  
Yo you wonder who I'm talking about?  
I'm standing right next to you ass, the one that you got in doubt  
First to shout, to get you into some bullshit  
Now you're all drowning, cause loose lips sink ships  
Do you like Hav'? He be like, hell no  
It works, cause you know, that the fucking truth hurts  
I just, let niggas bring 'em down in the day they cool  
After six they throw on the nightgown  
Loud sounds, expected after sundown  
Man down, half crowns get shot down and right now[Chorus][Prodigy]  
Yo, hey yo, we leave niggas with dry blood on they face  
Put slugs where your bones at, break you off a taste  
Shots of tequila, plenty Henny, we drinking heavy  
Smoking dust, Dunn I brought mez tabs with me  
And to my mamis on ecstasy  
See man, we can bungee in the V.I.P.  
We turn bitches out, take turns in that bitch mouth  
Carve niggas up, show niggas what it's all about  
It's us, the best of Queens, handguns to minks  
Top fashion, we flash and bang  
Niggas think they Flash Gordon, we snatch the link  
Cause we mafioso and you the average dick  
Kid, we send messages through bottles

Crash your face with the Mo, have glass all in your nostrils  
And run through why y'all niggas like the shits  
Kick niggaz with the boots, dukes we get biz, you's a[Chorus]
