

# Tracheotomy Peashooter

## O.L.D.

Chicken bone - in my neck  
I can't breathe - what the heck  
Butter knife impales my throat  
Through the slit - I start to choke  
Plastic straw - held with gum  
EMERGENCY TRACHEOTOMY  
Has been doneWaiting for the ambulance  
I get bored and start to play  
I take the peas from my plate  
Load the straw and fire awayWaiting for the ambulance  
I get bored and start to play  
Emergency - Tracheotomy  
Can be fun - you better runWaiting for the ambulance  
I get bored and start to play  
I take the peas from my plate  
Load the straw and fire away  
Shooting people in their eyes  
Is so much fun, the pain subsides  
Launching peas from my neck  
Blinds the waitress who drops the checkWaiting for - the ambulance  
I get bored and start to play  
Emergency Tracheotomy  
Can be fun - you better run - you better runWaiting for - the ambulance  
I get bored and start to play  
I take the peas from my plate  
Load the straw and fire away  
It's so much fun the pain subsides  
Launching peas from neck  
Blinds the waitress who drops the checkChicken bone - in my neck  
I can't breathe - what the heck  
Butter knife - impales my throat  
Through the slit - I start to choke  
Plastic straw - held with gum  
Emergency - Tracheotomy  
Has been fun
