

# Big Darkness, Soon Come

## My Uncle the Wolf

Before light, I pray  
For deities repay  
Since the end  
I wait  
Now free to run this way  
Soon it comes,  
No blame  
Just undertows we gain  
Big darkness is on it's way  
Occupying the bright of day  
I beg to pull it down  
I beg to pull it down  
Big darkness, on its way  
The cycle of the sound  
Big darkness, on its way  
The answer in the mud  
Big darkness, on its way  
I beg for the repay  
Big darkness on its way  
The sins that I can save  
Big darkness is on its way  
Big darkness is on its way  
Big darkness is on its way
