

# Save Me (feat. Zoë Johnston)

## Above & Beyond

He wants to hold the children up high  
When they come tearing thru the ride(?)  
To save you from falling  
To save them from falling

He wants to bring a little bring a little honey  
To the saltiness of grief  
To come up from underneath  
You used to say you would rescue me  
You yourself  
Lost at sea

Save me and ill save you  
Save me and ill save you  
Make ways to get through  
Together  
Save me and ill save you  
Save me and ill save you  
Make ways to get through  
Together

---
