I'm still dancing
Now we're burning
The heat was rising
And now we're breathing more and more
Can you see me now?
Can you hear me shout?
When I'm dancing through the fear
Will you catch my fall?
Do you know me at all?
It's like you never notice me
It's like you never notice me
I'm still trying
I'm not tired just yet
My eyes are drying
I never dreamed that you'd forget
Can you see me now?
Can you hear me shout?
When I'm dancing through the fear
Will you catch my fall?
Do you know me at all?
It's like you never notice me
It's like you never notice me
In my room there was doubt
Now no words can come out
We were friends, we had heat
Now I choke when you speak
Because you never notice me
Because you never notice me
Can you see me now?
Can you hear me shout?
When I'm dancing through the fear
Will you catch my fall?
Do you know me at all?
It's like you never notice me
It's like you never notice me
Notice me
