

# Mommy's Little Monster (live 6/90 L.A.)

## Social Distortion

Mommy's little monster dropped out of school,  
Mommy's little monster broke all the rules.  
He loves to go out drinking with the boys,  
He loves to go out and make some noise.  
He doesn't want to be a doctor or a lawyer get fat rich.  
He's twenty years old he quit his job,  
Unemployment pays his rent!  
His brothers sisters have tasted sweet success,  
His parents condemn him, say "his life's a mess!"  
He's mommy's little monster, he's not afraid to admit it.  
He's mommy's little monster, don't wake him in a fit!!!  
Mommy's little monster shoots methadrine,  
Mommy's little monster had sex at fifteen  
She left home for the streets,  
She couldn't deal with all that heat.  
She had fun with the boys in the band,  
In her eyes it will never end.  
Her dad asked what happened to her face,  
It could have happened in any place!!![Chorus]  
Her eyes are a deeper blue, she likes her hair that color too.  
She can even wear a dress, that doesn't mean she'll ever confess.  
She's mommy's little monster  
She's mommy's little monster  
She's mommy's little monster don't take her life away!!!
