

Your Name's Not Ned

Sioux Falls

i know what i am
and i know what i wanna do
i thought that we could get away
i thought that you would come around and stay
i don't like your rants
i think you're too intense at times
your eyes bulge out your head
bugging out about the books you've read
i know how it goes
and i know how your breathing flows
i thought that we could get away
i thought that you would come around and stay
why'd you go so soon?
i think you're on a thought parade
i called you up today
you hate raiders but love last crusadebut i think you lost again
you lost your head
your name's not ned
but who knows you've got weird friends
you picked a coma over your comrades
a vegetable at last
eating artificial grass
sometimes i hate myself
for putting stock in stupid stuff
i can't escape my head
she's so cool but i'm an idiot
she'll just slip away
you're as alone as yesterday
you woke up by yourself
called your mom and brushed your teeth real well
