

Nasty Girl (With Plies)

Ludacris

Lady in the street but a freak in the bed
Lady in the street but a freak in the bed
Lady in the street but a freak in the bed
Lady in the street but a freak in the bed You see she makes her own money, pays her own bills
Always stays fly, keeps it so real
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl She got a crazy little figure, nice round ass
Walks so proper, talks with such class
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl I met this girl named Keisha, she was so sweet
Nails stay manicured, pretty little feet
Shoes so sexy, body so hot
Hair lookin' like she just came from the shop Legs so smooth, clothes so tight
Style so sexy, makeup just right
Never too much, never too little
Black laced bra, Vicki Secrets in the middle Eyes so innocent, smile so bright, works in the mornin'
But she'll party all night
All for a man, all 'cause she bought it
All 'cause she crazy in love and don't doubt it Product of her birth place, know about the streets
Clean in the work place, dirty in the sheets
Keeps her own toaster, makes her own bread
Lady in the streets but a freak in the bed You see she makes her own money, pays her own bills
Always stays fly, keeps it so real
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl She got a crazy little figure, nice round ass
Walks so proper, talks with such class
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl I got a college girl, go to church every Sunday
Had to sneak her outta choir for her to put it on me
But she so innocent when she ran among me
One thing about her, she get her own money Gave it to her yesterday while she was doin' laundry
Favorite toy of mine is my lil' bunny
Bow legged and glasses, such a real woman
Sex all night, go to work every mornin' Text me from work and told me she was horny
Text her back and told her, me too mommy
When you get off work daddy gon' punish
You're my nasty girl forever, I promise You see she makes her own money, pays her own bills
Always stays fly, keeps it so real
But behind closed doors she a nasty girl

Behind closed doors she a nasty girl
She got a crazy little figure, nice round ass
Walks so proper, talks with such class
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl
I got a doctor girlfriend that tells me, come home soon
She plays like my house is her emergency room
Tells me to undress and to lay on the sofa
Checks all my vitals like a docs supposed to
All white coat, all white heels
And nothin' underneath so it's an all night deal
I'm her number one patient and delighted to be
And when she needs her medicine I give her Vitamin D
But wait, I got a lawyer girl that's so wild
And every single night she wanna take me to trial
Said she needs some evidence and to show her the proof
So I put her on the stand and I give her the truth
'Cause I'm hung like a jury
Judge Luda preside over your body and I'm never in a hurry
You may proceed, let the games begin
And if I call a mistrial we gotta do it again
You see she makes her own money, pays her own bills
Always stays fly, keeps it so real
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl
She got a crazy little figure, nice round ass
Walks so proper, talks with such class
But behind closed doors she a nasty girl
Behind closed doors she a nasty girl
