

# Serious

## Duffy

I always wanted to see the colors of your destiny  
I always wanted to know a flower that would grow  
Serious, serious I'm a trophy on your arm  
You wear me like a charm, yes you do  
An accessory that suits  
Your new suede boots I get a feeling deep down inside  
Something just ain't right  
I get a feeling that tells me I know  
Baby you never show how you really feel for me  
Tell me, can we ever be  
Serious, serious in love? A joke on my expense  
In front of all your friends, all the time  
A game you like to play  
Leaves me solo every day I get a feeling deep down inside  
Something just ain't right  
I get a feeling that tells me I know  
Baby you never show how you really feel for me  
Tell me can we ever be  
Serious, serious in love  
Serious, serious in love? I get a feeling deep down inside  
That something just ain't right  
I get a feeling that tells me I know  
Baby you never show how you really feel for me  
Tell me, can we ever be, tell me  
Serious, serious in love? Serious, serious  
Serious, serious  
Serious, serious
