Friends

Atomship

Hey momma, can't you see I'm fuckin' cookin'?Wasn't right for me but I know it was time for home
But I know it was time for home
And it was half past ten but all the lights were on
All the lights were onDid you read his face as blank as it was
As blank as it was
Well, mother sit him down as strictly where he wasAnd he said, "All my friends
Bloating and floating away
All my friends
Bloating and floating away"I left all my friends back around the bend
Back around the bend
The water turned to black as the night rolled on in
As the night rolled on inI couldn't hear a sound as I slowly turned around
As I slowly turned around
And there I saw my friends all god damn face downAnd he said, "All my friends
Bloating and floating away
All my friends
Bloating and floating away"And I walk on down, I don't feel the pain
And I'll raise my eyes
Mama let me raise my eyes
Won't you let me raise my eyes again?
Mama let me raise my eyesYeah, all my friends
Bloating and floating away
All my friends
Bloating and floating awayTo all my friends
Bloating and floating away
All of my friends
Bloating and floating away
