Moon & Stars (feat. Devin the Dude)

Big K.R.I.T.

[Chorus:]
So I ride I Lean I crawl
Do it better than them all
Let the road be my guide
As I glide in candy cars
Underneath the moon and the stars[Big K.R.I.T.]
My digital dash
As I mash on the gas
Don't know where I'm going fast
But I'm going there
Stop at the club
Forever show some hoes in there
Shaking their ass
Looking for players with doe to share
But that ain't me tho
Before I trick on a bust it baby
I'm outta the door
If you are looking for savings shawty
Not your hero
More like a guide
I can take you where you want
Would you look in my eye
Like you're supposed to
Cold enough to froze ya
Talking about that pimping
You already have been exposured
Far from being sober
Let's travel into space
While puffin on this Yoda
Glowing like a light saber
Doing what the grownups do
Be grateful that this game was bestowed upon onto you
Cause back there man betraitors don't try to listen to
Cause they front
But they don't do
What I do
Cause they will never ever be this[Chorus]
So I ride I Lean I crawl
Do it better than them all

Let the road be my guide
As I glide in candy cars
Underneath the moon and the stars
