Revelation

Metalium

The picture's gettin' clearer now
Pieces start to fall in place
I need to know the possibilityIs it more than just a vision?
Can I trust my intuition?
Now my dreams become realityRevelation, it has come to me
Revelation, the divine will seeNow I have their wisdom in me
Feeling so illuminated
Blurry ring, was this meant to be?Re-born with a new found optimism
Filled with violent energy
Drowning in my own mortalityRevelation, it will come to be
Revelation, the divine will seeRevelation, it will come to me
Revelation, the divine will see
Revelation, it has come to me
Revelation, the divine will seeWhat's that reflection?
The flask, flask, flask
