

Victorious in Love

Onething Live & Lauren Holmes

The mountain seems so high
God, I feel so small
Just help me fight this fear
and in my weakness be made strong
I see you on the hill
God, I want to be there too
Help me
Say yes to You

CHORUS:

I'm dreaming again
I'm running to win
With You by my side
I'll throw my fears behind
I can conquer the mountain

Can we just go back to
What felt comfortable
But you said arise
God, it seems impossible
I'm clinging to the truth
of what's impossible with man
is possible with You

CHORUS - 2

I will be victorious in love
Fearless I'll keep running
I know that I will come up leaning
I will come up leaning on you

I see you standing
On the mountain
Your arms are open
Your eyes filled with hope
You're gonna make it
You shout in victory
And I come running
Like I never have before (2)

I will be victorious in love
Fearless I'll keep running
I know that I will come up leaning
I will come up leaning on you
