

My Heart Is Still Young

Jennifer Rush

I must be falling
Or is it just a dream?
No, this is it
There's no in-between You know I want you
I know that you want me
This heart's a lock
And you hold the key You just stood there and watched as I fell
I give in, do you promise me hell? Take my heart
Take my hand
Show me, what do you want?
Got my will
What you got
Is my love on command So tell me, how does it feel
In the palm of your hand to stay?
My heart is still young You know my weakness
I know it's shining through
Now all my secrets
They're all about you Where's my protection
From what I don't wanna know?
'Cause when you touch me
I never say no Now you stand there like you've lost it all
I'll pick you up, I will break your fall Take my heart
Take my hand
Show me, what do you want?
Got my will
What you got
Is my love on command So tell me, how does it feel
In the palm of your hand to stay?
My heart is still young
My heart is still young Do it while this heart is still young Tell me, how does it feel
Right in the palm of your hand?
Want you to stay
My heart is still young I'll pick you up
I will break your fall Take my heart
Take my hand
Show me, what do you want?
Got my will
What you got
My love on command Take my heart

Take my hand
Show me, what do you want?
Want you to stay
My heart is still young
My heart is still young
My heart is still youngTake my heart
Take my hand
Show me, what do you want?
Want you to stay
My heart is still young
My heart is still young
My heart is still young
