

Until My Last Breath

Freddy Mullins

When she speaks to me
Her words and pain in harmony
Oh see what you've done
Gone from everything to none

And her shadow is my cell
Prisoner of a spell
Oh see what you've done
Caught in memories you've spun

Oh my love
I'd give my kingdom for your kiss
I'll search until I lose my last breath
It's anything to have you here
With myself

And her ghost still haunts my night
But I don't put up a fight
And oh see what you've done
My world was within one

Oh my love
I'd give my kingdom for your kiss
I'll search until I lose my last breath
It's anything to have you here
With myself

Avenues in her eyes
Now the paths of our goodbyes
So you see what you've done to me
So you see what you have done to me

Oh my love
I'd give my kingdom for your kiss
I'll search until I lose my last breath
It's anything to have you here
No it's everything to have you here
With myself
