

# Get Low

## Dead Man Winter

Sing it like you mean it son  
Like thereâ€™ll never be another one  
You say im gonna love you when you fall  
One more drink i gotta go  
Drive all night you never know  
The night life is a goodlife afterall

You get high  
You get high  
You get low

Broken strings and broken hearts  
Your crazy man donâ€™t ever start  
You know you cant go back to where youre from  
Sunrise lights and yellow shores  
Oh richie left town he had to go  
But i still pick it up when he calls

You get high  
You get high  
You get low

Heavy rocks and molly roll and  
I got love i never show  
Maybe ill get better maybe not  
Ive been up  
You been there too  
Ive been down and u know its true  
Ive woke up with my shoes off in the yard  
You get high  
U get high  
U get low

Sing it like you mean it son  
Like thereâ€™ll never be another one  
They say im gonna love you when you fall  
One more drink then i gotta go  
Drive all night and you never know  
Night life is a good life after all

You get high

You get high

You get low
