

If She Knew

Lemar

She says I never listen and I'm not attentive to her emotions
I say she's got tunnel vision, only sees it her way
So we never can work it out
She's all ready to give up and move on
I don't think she knows how I wish sometimes she could read my mind
If she knew how bad I wanna make this work
How my love belongs to her she wouldn't be able to walk away
If she knew how bad I gotta have her close
If I ever let her go I wouldn't make it a single day
She would never have to ask if, if she knew how bad
I've got it, gotta find a way to tell her how I feel before it is over
I guess I could have done things better
I never should have let it get this far
She's all ready to give up and move on
I don't think she knows how I wish sometimes she could read my mind
If she knew how bad I wanna make this work
How my love belongs to her she wouldn't be able to walk away
If she knew how bad I gotta have her close
If I ever let her go I wouldn't make it a single day
She would never have to ask if, if she knew how bad

The thought of losing her 'cause I did something wrong
'Cause I should have been there whenever she needed someone
It's a feeling that I know would kill me 'cause
She's my heart, my soul, my love, I would never give her up
If she knew how bad I wanna make this work
How my love belongs to her she wouldn't be able to walk away
If she knew how bad I gotta have her close
If I ever let her go I wouldn't make it a single day
She would never have to ask if
If she knew how bad I wanna make this work
How my love belongs to her she wouldn't be able to walk away
If she knew how bad I gotta have her close
If I ever let her go I wouldn't make it a single day
She would never have to ask if, if she knew how bad
How bad I really love her, how bad, how bad
If she only knew how, how bad I really love her
I just can't live without her
If she knew how bad, if she knew how bad
