

# Circle Dream (alternate lyrics demo)

## 10,000 Maniacs

I dreamed of a circle, I dreamed of a circle round  
And in that circle I had made were  
All the worlds unformed and unborn yet  
A volume, a sphere that was the earth  
That was the moon, that did revolve around my roomI dreamed of a circle, I dreamed of a circle round  
And in that circle was a maze, a terrible spiral to be lost in  
Blind in my fear, I was escaping just by feel  
But at every turn my way was sealedI dreamed of a circle, I dreamed of a circle round  
And in that circle was a face  
Her eyes looked upon me with fondness  
Her warmth coming near, calling me "sweetness," calling me "dear."  
But I whispered, "no, I can't rest here. "I dreamed of a circle, I dreamed of a circle round
