

# Shattering the Skies Above

## Trivium

Take me into the seas  
so i can clean off this diseased death will complete me  
It's what I need Take my evil  
To the skies  
Take my evil  
All light dies Shattering the skies above  
I want to destroy all that you love  
Shattering the skies above  
I wont rest 'till I am drenched in blood Take me into the seas  
so i can clean off this diseased death will complete me  
It's what I need [Solo] Take my evil  
To the skies  
Take my evil  
All light dies Shattering the skies above  
I want to destroy all that you love  
Shattering the skies above  
I wont rest 'till I am drenched in blood Take my evil  
To the skies  
Take my evil  
All light dies [Solo] Shattering the skies above  
I want to destroy all you love (I'm Shattering)  
(Shattering the skies above) Shattering the skies above  
I wont rest 'till I am drenched in blood  
I'm shattering Take my evil  
To the skies  
Take my evil  
All light dies Shattering the skies above  
I want to destroy all that you love  
Shattering the skies above  
I wont rest 'till I am drenched in blood Shattering the skies above  
(Shattering the skies above)
