

Can't Get the Stink Out

NOFX

what i scream about, can't get the stink out. catch it on my tongue, save it in my lung. fucking vegans smoking, keep us all choking. big round of applause for california laws. act like human beings instead of europeans. i was a singer/dancer, now i got lung cancer (ahhhhhh). can't get the stink out. can't get the stink out. can't get the stink out. can't get the stink out.
