

# Green Light Girl

## Doyle Bramhall II & Smokestack

Pretty thing on her feet  
She's gonna leave them sorry  
She's a sweet and sour miss  
Too hot to handle now  
Spend all night  
In a red light town Looking for a green light  
Green light girl  
Looking for a green light  
Green light girl All the boys want you  
Your glamour and despair  
She smiles and rolls her eyes  
In a rock and roll uprising  
Touch if you want to  
She's the girl of the year Talking about a green light  
Green light girl  
Talking about a green light  
Green light girl Green light  
Green light girl  
Green light  
Green light girl  
I'm talking about a green light girl  
Green light Green light  
Green light girl
