

Achilles' Heel

Atomic Opera

I still remember the innocence
When our laughter could still be found
Before we built up a world
That we knew would fall down
How can you know everything you do
And then promise me the world
When everything I try to do
Falls on you, it falls on you I've got to go back to the place
Where I've been before
'Cause it's hard to believe in...
I've got to go back in time
To the place where I've been
It's hard to believe in
I've got to go back, get back, go back, turn around, it's hard to believe in...
I've got to go back to the place
Where it all began
'Cause it's hard to believe in you If you really love me
Can you deny my arrow
If you're as strong as you say you are,
Where's the Achilles' heel, where are we going to go
How can you do all the things you do
I thought you hung the moon
Still, every voice that I hear says
"Run to you, run to you" I've got to go back to the place
Where I've been before
'Cause it's hard to believe in...
I've got to go back in time
To the place where I've been
It's hard to believe in
I've got to go back, get back, go back, turn around, it's hard to believe in...
I've got to go back to the place
Where it all began
'Cause it's hard to believe in you If it's all so cut and dried
Why does it look like a mess
How can love hate evil
When evil came from love
And love made all the rest I've got to go back to the place
Where I've been before
'Cause it's hard to believe in...

I've got to go back in time
To the place where I've been
It's hard to believe in
I've got to go back, get back, go back, turn around, it's hard to believe in...
I've got to go back to the place
Where it all began
'Cause it's hard to believe in you
