

California Ñ¼ber alles

Dead Kennedys

I am Governor Jerry Brown
My aura smiles and never frowns
Soon I will be President Carter power will soon go away
I will be fearer one day
I will command all of you
Your kids will meditate in
Your kids will meditate in school California uber alles
California uber alles
Uber alles California
Uber alles California Zen fascists will control you, 100% natural
You will jog for the master race
And always wear the happy face You close your eyes can't happen here
Big bro' on white horse is near
The hippies won't come back you say
Mellow out or you will pay
Mellow out or you will pay California uber alles
California uber alles
Uber alles California
Uber alles California Now it is 1984, knockin', knockin' at your front door
It's the Suede Denim secret police
They have come for your uncool niece Come quietly to the camp
You'd look nice as a drawstring lamp
Don't you worry it's only a shower
For your clothes is a pretty flower Die on organic poison gas
Serpent's egg's already hatched
You will croak you little clown
When you mess with President Brown
When you mess with President Brown California uber alles
California uber alles
Uber alles California
Uber alles California
