

# Beautiful People

Mark Pritchard

I'll smile careful  
Beautiful people  
You know you're there  
I'll smile careful We can't go back  
To know you're there  
I'll smile careful  
'till the love is ours  
'till the love is ours A flap of the wings  
And the chaos that it brings  
I killed my love  
Please come to see  
To lose no time 'till the light goes off  
'till the light goes off  
Flies out of the window  
But angel stroke your hair  
To know you're there  
We can't go back (the morning light)  
(the morning light)  
(the morning light)  
I'll smile careful  
Beautiful people To kill for most  
(the morning light)  
To lose your ghost  
I'll smile careful  
To know you're there (the morning light)  
And I am fearful  
The morning light  
To the faces I fly  
To know you're there  
We can't go back I planned everything  
I planned everything  
I'll smile careful  
If I had to go  
If I had to go  
To lose yourself
