

# These Are The Days

## Sugarland

It's written on our palms and it's written on our hearts  
It's written in our songs and it's written in the stars  
Sometimes all we can do is stand up tall  
They're standing in line just to watch us fall  
Woah, woah, we can't forget these are the days  
Woah, don't be afraid, we can't forget these are the days  
Well, we got each other and that's all we need  
From here on out it's just you and me  
Two hometown hearts up against the world  
That don't stand a chance against this boy and girl  
We've faced 'em down, fought bigger fights  
And I know, babe, we're gonna be alright  
Woah, woah, we can't forget these are the days  
Woah, don't be afraid, we can't forget these are the days  
Well, it feels like we're living from paycheck to check  
And we wake up wondering what might happen next  
Yeah, sometimes it feels like we won't make it through  
But the hard times pass like the good ones do  
Baby, wrap your fingers and hold on tight  
I'll be right here beside you tonight  
Baby, climb up here, watch the city glow  
Let's make a wish on the fireworks below  
We're making moments we won't forget  
We fill in ones that haven't happened yet  
Woah, woah, we can't forget these are the days  
Woah, don't be afraid, we can't forget these are the days  
Woah, don't be afraid, we can't forget these are the days
