Track Number 7

Doubledrive

Make no mistake
You can't get a break
When you're up to your neck in it
Here comes the man
The shit hits the fan
And everything goes with it
Make haste
There's nothing left to say
They'll pull you down deeper in itGet up-get up
Get up and unload
You got to carry on with it
Who is right
We'll surviveStinks at best
When shit's on your breath
But I know you been swimming in it
Here comes the judge
To flush out the sludge
Penalized, fined and now the sentence
Baby, baby when the levee breaks
I'm gonna blow up
You get itGet up-get up
Get up and unload
Or you're gonna get buried in it
Who is right
We'll survive
