

# Bring Back the Music

## Jennifer Hudson

Ok so here we go  
Give me that  
Mhm, just like that  
Yeah, that's starting to feel like music right there  
Give me a lil something else  
Let's take em, let's take em backWon't you bring it back?  
Won't you bring it back?  
Yeah we'll bring it back, yeah we'll bring it back  
Singing together, dancing in the street  
Music playing, moving to the beat ooh  
Back in the time, that music make me smiling  
The song will change the weather, we can together  
But somewhere along the lines we lost sight  
And we made the music go away  
Take away our joy and we started fighting  
And before we lose another, todayWon't you save? And we'll bring it back? Say we'll bring it back  
Gotta bring it back, gotta bring it back  
Bring back the music, bring back the life  
Bring back that feeling, feeling of love  
(Let me talk to 'em)Songs of freedom, it's music make you free  
It makes you happy, gave you all you need  
Back in the time, it was ok to love  
Music said the words you couldn't think off  
But somewhere along the lines we lost sight  
And we made the music go away  
Took away our joy and we started fighting  
And before we lose another, todayWon't you save? And we'll bring it back? Say we'll bring it back  
Gotta bring it back, gotta bring it back  
Bring back the music, bring back the life  
Bring back that feeling, feeling of loveHey, hey, hey, hey  
Bring back the music, oh bring back the music  
Never let it go away (Bring it back)  
Hey, hey, hey  
We need the music, yeah we need the music  
Won't you let the music play? (Let it play)  
Hey, hey, hey, bring back the music, oh bring back the music  
Never let it go away  
Hey, hey, hey  
We need the music, oh we need the music

Won't you let the music play? (Won't you let the music play)
