Loki Cat (Reprise)

Jimmy Chamberlin Complex

A life comes our way
A death comes our way
Which is the safer place
I'll tell youWho are we to complain
When God takes things away
Is it enough to confess
Some sadnessI gaze into the sun
My green eyes burningI found no angels
I found myself
I found no angelsYou and you are true
I can't meet you halfway
You and you are true
I can't meet you halfwayI found no angels
I found myself
I found no angelsSimple cares they escape me
If I walk away don't hate me
I got to see where the pain will take meI found no angels
I found myself
I found no angelsI found no angels
I found myself
I found no angels
