Forgot About Love

Omarion

All these girls in the club
Far away I notice her
She's lookin' hella' good
Approach her, I think I should
I sense some rose over there
Somehow she's over here
Gotta whisper in her ear
Let's leave
Infatuation has got me nice and clear
No information about her, I don't care
Maybe I do, but I just want what I get
I'm just a man, might not get another chance
Seem like we forgot about love
Seem like we forgot about love
Spend so much time in the club
Seem like we forgot about love
Seem like we forgot about love
Seem like we forgot about love
Spend so much time in the club

Seem like we forgot about love
Infatuation has got me nice and clear
No information about her, I don't care
Maybe I do, but I just want what I get
I'm just a man might not get another chance
Seem like we forgot about love
Seem like we forgot about love
Spend so much time in the club
Seem like we forgot about love
Seem like we forgot about love
Seem like we forgot about love
Spend so much time in the club
Seem like we forgot about love
Seem like we forgot about love
Seem like we forgot about love
Spend so much time in the club
Seem like we forgot about love
Seem like we forgot about love
Seem like we forgot about love

Spend so much time in the club
Seem like we forgot about love
