

Maybe It's a Good Thing

[KT Tunstall](#)

All this choosing-wrongs losing ground
Often feeling lost, has brought it out. But I'm looking for a love, not a heartache
Yes I'm gonna take my time
Even though I know from the handshake
If I wanna make you mine I am walking blind
Maybe that's a good thing,
Maybe that's a good thing.....that I can't see what's coming
And I don't much care
Life will become one big stupid "Truth or Dare"
Maybe it's a good thing Temper me with dignity today
Ever shoot your silver through my veins Looking for a change in my make-up
Break apart and start again
I will ask a question
You will win my heart and then.....I will send you a sign
Maybe that's a rare thing,
Maybe that's a rare thing. When a light comes blinding
And it stops me dead
I'll always remember the time you sat next to me and you said,
"Maybe it's a good thing." When a light comes blinding
And it stops me dead
I'll always remember the time you sat next to me and you said,
"Maybe it's a good thing.
Maybe it's a good thing."
