

If We Only

Red

Let it die

Sick of all the promises youâ€™ve broken
You break them all
I get all the blame and youâ€™re the victim
You sell a lie

How long will you hold on
Why canâ€™t I let it go
Find a way to escape all the hate

If we only can get over
All the pain inside
All the wasted pride
If we only, if we only
Could just face the truth
Give up the fight and let it die

Tell me why you drown me with your silence
You make me sick
Tell me why Iâ€™m always craving violence
Tell me why

How long will you hold on
Why canâ€™t I let it go
Find a way to escape all the hate

If we only can get over
All the pain inside
All the wasted pride
If we only, if we only
Could just face the truth
Give up the fight and let it die

Let it die

Iâ€™m done with this
Iâ€™m done with this
Iâ€™m done with this

If we only can get over
All the pain inside
All the wasted pride
If we only, if we only
Could just face the truth
Give up the fight and let it die

If we only can get over
All the pain inside
All the wasted pride
If we only, if we only
Could just face the truth
Give up the fight and let it die

Let it die
Let it die
