

I've Got You and You've Got Me (Version Two)

New Buffalo

I've Got You and You've Got Me I wanted it so bad
 Making all the props
 Sitting on my swing
 Giving all I've got
 But when they dim the lights
 Forgetting my stage fright
 I find that little smile
 Cause I've got you and you've got me
I've got you and you've got me I light his cigarette
 Acting with regret
 Saying all my lines
 Pretending things are fine
 But when the curtains close
 Everybody knows
 I climb into the space
 Where I've got you and you've got me
I've got you and you've got me What happens when I say
"This may be the last beautiful day" I'm dancing in my sleep
 With promises I'll keep
 Feeling so complete
 Cause I've got you and you've got me
I've got you and you've got me I've got you and you've got me
 I've got you and you've got me
 I've got you and you've got me
 I've got you and you've got me
 I've got you and you've got me
 I've got you and you've got me
 Everybody knows, everybody knows
 I've got you and you've got me
 Everybody knows, everybody knows
 I've got you and you've got me
 Everybody knows
 I've got you and you've got me
