

# Wire

## Omni

I pulled a wire  
You put your hand on me  
That's what I wanted you for  
I don't require a certain potency  
Yes and no, it was before Ketchup on your face  
The Rams won the race  
That's what I tapped you for  
Statues they see, what we all could be  
Is that what we're really in for?  
Let's share champagne in the sand  
Let's share champagne in the sand White shirt, black dress in the desert  
Couldn't tell you how we're on hour twenty-four  
I'm nameless on hour twenty-four  
I'm nameless on hour twenty-four You don't get tired  
As far as I can see  
I've lost my sense of time and debut  
I don't require more than you could be  
Let's fall back and into June Let's share champagne in the sand  
Let's share champagne in the sand  
White shirt, black dress in the desert  
Couldn't tell you how we're on hour twenty-four  
I'm nameless on hour twenty-four  
I'm nameless on hour twenty-four  
White shirt, black dress in the desert  
Couldn't tell you how we're on hour twenty-four  
I'm nameless on hour twenty-four  
I'm nameless on hour twenty-four Let's share champagne in the sand  
Let's share champagne in the sand
