On Your Side

Scattered Trees

Youre so right,
and everybodys on your side
Cause you put it all together
oh just in time.
And Im so wrong
But everybodys wrong sometimes
So I play a little louder
to not hear you cry
And we both know
that things are goin
to have to change.
It cannot stay the same
Ill hold you tight
and tell you that itll all be fine
And that even when it wont
Well still be alright
And we both know
that things are goin
to have to change
it cannot stay the same
