

# Right Wing Pigeons

## The Dead Milkmen

The town in Georgia's got a law on the books  
Says if we all got guns then we won't have crooks  
Now what could make them think that way?  
What could make them act that way?

They're just right wing pigeons from outer space  
Sent here to destroy the human race  
They don't give a damn about you or me  
They just buy guns and watch TV  
Let's go!

The lady in Detroit owns a can of mace  
Got pissed at my brother so she sprayed it in his face  
Now what could make her think that way?  
What could make her act that way?

She's just a right wing pigeon from outer space  
Sent here to destroy the human race  
She don't give a damn about you or me  
She just buys guns and watches TV

The man in the White House who just don't care  
He starves little kids and he dyes his hair  
Now what could make him think that way?  
What could make him act that way?

He's just a right wing pigeon from outer space  
Sent here to destroy the human race  
He don't give a damn about you or me  
He just buys guns and watches TV  
Go!
