Legend I : II

Saviour Machine

I will rise through the Earth,
I will live through the sea,
I will love you through the darkest age,
I shall stand in the way of the Light,
I shall conquer this stage with the Night.
I am the Prince of the Power of the Air,
The son of transition.
I am the way in the silence of one,
"I am Night," a legend has come.
Follow me through the flame,
Come with me in the name
Of my Father and the morning star.
I am the desolate one, sold to thee,
I am Lucifer's son, behold the seed.
Fallen from grace is the name of the Christ,
Idol the Shepherd that leads,
Riding a white horse, the bringer of dreams.
"Ride away," a legend has come.
