

She's In a Rock 'n' Roll Band

Doug Seegers

She didn't leave the house without a guitar in her hand,
now something bothers me I don't understand,
if our little girl is heading back for school,
way it's so important to be so cool,
when she calling everybody a fool we done our very best for her that we could no,
we never treaded anybody else so good no,
look the door to her room were always locked,
through the walls I could here that evil rock,
through the walls I could here that evil rock
She's in a Rock 'n' Roll band now, she's really gone,
this is my little girl, help me hold on,
god please answer my prays and help me be strong,
she's in a Rock 'n' Roll band now, she's really gone,
she's really gooooooone, she's really gone
I sad now mama what has happen to our girl,
that little angel that we thought we now so well,
she's like a wild girl stuck inside a cell,
little peace of heaven heded straight to hell
little peace of heaven heded straight, straight to hell
She's in a Rock 'n' Roll band now, she's really gone,
this is my little girl, help me hold on,
god please anser my prays and help me be strong,
she's in a Rock 'n' Roll band now, she's really gone,
she's really gooooooone, she's really gooone, she's really gone
she's really gooone, she's really gooone
