

Fault

Taproot

Hee yee eea Why did I let you inside my life?
How could I let you inside my body my soul my brain?
Now I can't make you go away
(Ooh)
You're driving me insane and inside out?
I can tell it's meaningful and so hurtful
There's no place just to hide I can tell you right now that
This pain that I feel is not just inside of my mind
I can tell you right now that
Its physical and painful to be so vulnerable Oh this is my fault
Oh this is my fault How could I lie to myself again?
These bad decisions a never ending story
I think I'd know by now just how to 'bout to smile
You're driving me insane and inside out
Because it's meaningful and so hurtful
There's no place just to hide I can tell you right now that
This pain that I feel is not just inside of my mind
I can tell you right now that
Its physical and painful to be so vulnerable
I can tell you this pain is so unreal
Can't help but feel left all alone
I can tell you to listen to me
When I say to you I know This is my fault
Oh this is my fault I know this is my fault
I know this is my fault
I know this is my fault
I know this is my fault I can tell you right now that
This pain that I feel is not just inside of my mind
I can tell you right now that
Its physical and painful to be so vulnerable
I can tell you this pain is so unreal
Can't help but feel left all alone
I can tell you to listen to me
When I say to you I know This is my fault
Oh this is my fault
Oh this is my fault
(This is my fault)
Oh this is my fault
Oh this is my fault
